

The Plotline Bomber of Innisfree

Set in the near future in the mountainous and fielded cusp between BC and Alberta, *The Plotline Bomber of Innisfree* by Josh Massey is the story of Jeffery Inkster, an ex-hipster-turned elk farmer. Inkster, whose goal is to live peacefully with his elk, harvesting their antlers, becomes embroiled in the political violence of oil-pipeline expansion. Drawing from his experience working in the Peace Country of northern BC, Massey brings us the story of a community of artists and eccentrics who all become suspects in a series of pipeline bombings. But, amid the activism and counter-terrorism, there are other, more mysterious forces at play, forces that eat into the consciousness of all those involved. Terrifying, hilarious, and suspenseful, this novel offers a satirical perspective of industrial society that will at once unsettle readers and present them with a cathartic release from the exasperation they might feel living in a civilization teetering towards environmental collapse. Fans of metafiction, especially those who enjoy works with a thriller edge, and admirers of the works of writers Italo Calvino and Jorge Luis Borges and filmmakers Christopher Nolan, David Cronenberg, and David Lynch, will appreciate this post-modern take on contemporary industrial and environmental politics through storytelling.
