

EVERYTHING SPEAKING CHINESE - Enhanced, Revised Edition

Seventy-six meditations, prosepoems and tonepoems on the Southeast Asian landscape evoking interior calls and correspondences in aesthetic, cultural, social, and spiritual realms. Its physical geography of China, Taiwan and Northeast and Southeast Asia hastens toward the heart: Design radiating inward from circumfluent externals to that place of stillness, and dark,[of] all that is absent, and not. Mimetic sensory experience of Asia and Asian is remade with an outsiders freshness that weighs Cathay with Christmas, tradition-rich heritage with the breathless poor and rickshaw baggage culture. A gathering poised between extremes of psyche and sense, it resonates with dreamscape, cityscape, and seascape cognitive, painterly, and visceral zen-like moods. EVERYTHING SPEAKING CHINESEs quinquartite landscape of vision recreates one art-of-a-piece with its blissful, invisible people you can almost hear/[as] fresh Asian spirits not yet setting out for the other side.
