

The Dead Shaman in the Garage

The novel *The Dead Shaman in the Garage* is a postmodern, mythic reworking of the Tale of the Magi with an ecological theme (Southwest desertification). This mythic magic takes place in December during the Christmas-solstice season. The Kings are three earnest-but-shady nightclub partners from the Mexican border town Piedras Negras (Black Rocks); they track their trapeze midget couple (our star attraction) northward following their bizarre disappearance into the heavens during a midnight high wire show; in hot pursuit this brings the three nightclub kings to San Antonio, the major setting for the narrative.

In San Antonio the plot shifts to the Anglo family of Cookie and Larry Medlar. Much to their surprise, the Medlars experience a seeming miracle in the ectoplasmic, ghostly appearance of an ancient shaman in their townhouse garage. Cookie and Larry are an empty nest academic couple, recently moved from New England to South Texas; Cookie, a Harvard-grad, seer and leftist, feminist blogger, and her physicist husband Larry, adopt the Healer who begins to recover his vitality. Cookie and Larry act as the initial parents to the Healers return before the curiously delayed manifestation of his future parents, the midget Mexican couple from the Border. Bringing all intriguing social actors together at last, the official forces of law and order and mythic destiny collide in a muddled battle for secular, scientific & spiritual control; a magical empowerment of the principals leads in ensuing months to a possible fortuitous string of breakthroughs healing this drought-weary region, and for the long range, legendary cures for the ecological ravages and energy shortages of the 21st century.
