

## Orcs vs Elves 2, vol-2

THIS IS ISSUE 3 (Dark and Taboo Series)  
All her life Ailluin had been taught by her village and by her family to hate Orcs. As various wars between the Orcs and Elves happen through the ages, she learns to hate them with all of her heart. Though her family has strong lineage in the Elven military, Ailluin herself never had interest in joining. She spent most of the time hunting for sea shells and hunting for various sea life within the beaches of Falderon. Those beaches had the most spectacular reefs and sea life, however, it was on the border with the Orc territories. Though there is a current cease fire between the two races, Ailluin still was very cautious while hunting this area. She did come to know a few young Orcs in this area, either by observation or by fighting over the same prey. On this particular day she gets in an argument with some young Orcs of the last ferry fish that was available for the season. Will she win this argument and send the Orcs packing? Or will she lose and pay the ultimate price?
